

Servicemen

An official at Chanute AFB, Ill., has announced the graduation of Airman Daniel B. Minaker from the U.S. Air Force's missile systems analysis specialist course conducted by the Air Training Command.

Airman Minaker, son of Mr. and Mrs. Elmer Minaker of R.R. 1, Sheridan, Mich., is now trained to inspect and repair missile systems, and will serve at Andersen AFB, Guam. Completion of the course enables the airman to receive academic credits through the Community College of the Air Force.

The airman is a 1973 graduate of Central Montcalm High School in Stanton, Mich. His wife, Sandra, is the daughter of Mrs. Betty Featherly of Greenville, Mich. Mrs. Minaker's father, Forrest House, resides in Rockford, Mich.

Engaged

Mr. and Mrs. Charles Sprague of Bailey, Michigan, are proud to announce the engagement of their daughter Vicki Ann to Ted Baehre. He is the son of Mr. Walter Baehre of Sparta, Michigan and Mrs. Adrian VanOost of Pierson, Michigan.

A June 11th wedding is being planned.

Even if you use the short form, it could pay you to see us."

Henry W. Block

That's Reason No. 15.

Even the short form is more complicated this year. So to be sure you pay just the smallest legitimate tax—it could pay you to see Block. And if switching to the long form will save you money, we'll show you just how much.

Senior Citizens Fellowship

By ARZIE L. PINCKNEY

Last Thursday was not such a bad winter day and 70 members were out for a cup of coffee and a donut, with one new recruit.

We were happy to welcome Mr. Ryn Visser to our group and we hope that he had a good time and will be able to be with us regularly. Ryn and his family make their home at 11253 Northland Dr., Rockford, Mich. We had a good report from some of our sick folks. We were happy to welcome our long time friend and member, Wm (Bill) Axford back after spending several weeks in the hospital and

recuperating at home. To see Bill in his usual place brings back the many years we worked together with the Boy Scouts and the American Legion players.

George Carr is some better but he is not able to be with us yet. Boy, he went to the hospital Christmas day and has been confined since he got home. But he is slowly gaining.

We understand that Chas Shmid has been moved over to Kent Community Hospital. We had a nice visit with Mrs. Guy Verberg and she told me that it would be some time before Guy will be able to be home.

Our friend Chester is home but he is not feeling too well. We hope he can be back with us soon. We heard that our senior of seniors, Abe DeWilde was not so good but the last report is that he is better.

Last Thursday we asked our men if their phone number had been changed to let me know. If any members were not present and have changed numbers call Cliff Dingman or me. Cliff's number is 887-9059 and mine is 887-4091. We hope to see you all Thursday at the birthday Pot-luck dinner at 12 o'clock sharp, in the Church dining room. Bring your table service and a dish to pass. And don't forget to bring a good appetite. That's the way it had to be Jan. 20, 1977.

Births

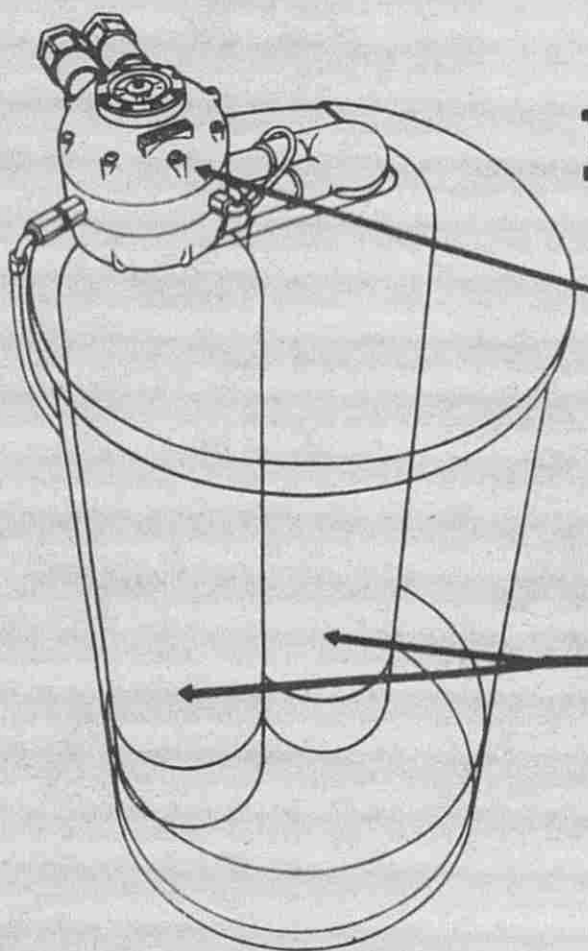

Proudly announcing the birth of their new daughter, Catherine Elizabeth, are Dave and Judith Behler of Bailey.

She was born December 10th, weighing 6 lbs. 9 ozs. and was 19½ in. long.

Welcoming her home are Ricky 7 yrs. and Brandy 2 yrs. old. Grandparents are Mr. and Mrs. Joe Behler of Ravenna, and Mr. and Mrs. Henry Jernberg of Bailey.

please

don't compare KINETICO
with other water conditioners

This one is different.

No Electricity!

KINETICO's fully automatic control valve works like the water meter in your home. Unlike wasteful timer operated softeners, KINETICO continuously meters your changing demands for soft water, recharging only when necessary, reducing salt cost by as much as 75%.

Twin Softening Tanks

The only way to give you zero soft water 24 hours per day! Thus, at no time can hard water enter your water lines. Unlike single tank softeners, only soft, filtered water flows through the control valve. KINETICO even recharges the exhausted tank with soft water from its fully recharged twin.

but

if you must compare:

Here's ten reasons to call your 'KINETICO' man

Specifications	Kinetico	Culligan	Miracle	Sears
Electricity Required	No	Yes	Yes	Yes
Is Vacation By-Pass and Guest Cycle Required?	No	Yes	Yes	Yes
Is Size of Unit Needed Based Upon Number in Family?	No	Yes	Yes	Yes
Number Softening Tanks	2	1	1	1
Metered Regeneration, based on the amount of water used	Yes	No	No	No
Unlimited Daily Potential Grain Capacity	Yes	No	No	No
Is Soft Water Available During Regeneration?	Yes	No	No	No
Is Soft Water used to regenerate Brine, Backwash, and Rinse Cycles?	Yes	No	No	No
Working Parts of Valve Operate in Soft Water at all times, reducing costly service.	Yes	No	No	No
Is Soft Water Available 24 Hours Per Day?	Yes	No	No	No

KINETICO

No more wasted salt. No more wasted water and no electricity. IT'S THAT SIMPLE.
