IN MEMORIAM

In loving memory of Stub Hawley who passed away 5 years ago Jan. 14th, 1972.

Daughter, son-in-law, grand children and great grand children.

B is for his big blue eyes
I is for his innocence and darling smile
L is for his light blond hair
L is for the loving way he was
Y is for the 3 1/2 years of precious memories he gave us.

Billy Kenneth Shafer went up to heaven with Jesus 2 years ago on Jan. 10. He is greatly missed by his family. He was a perfect little boy, so much like a little angel, the Lord called him up that day.
Mom and Dad can't wait until that glorious day comes when they can kiss and hug his darling rosy cheeks, and all be together again as one happy family with our Lord Jesus Christ in Heaven.

CARD OF THANKS

I would like to thank all that sent me cards on my 91st birthday. I celebrated Christmas Day.
Nora Morgan

I wish to express my thanks to all my wonderful friends and neighbors, my family and brother and wife for their cards, prayers and acts of kindness while in the hospital and at home. I also thank Rev. Hessler for his visits and prayers. Also a big thank you to all my coffee dunkin pals.
William Axford

Inflation

Inflation has caused the cost of goods and services to rise as if they were jet propelled. But ironically, the average airline fare has climbed very little and very slowly indeed.

In 1975, the Cost of Living Index for all U.S. products and services rose by 9.1 percent. The average domestic airline fare per mile went up only 2.1 percent.

Time savings aside, with discount fares, air travel today is frequently less expensive than the cost of car, bus, or train travel.

Since 1948, how does the increase in airline fares compare with the increase in other goods and services? Busfares (Intercity-Class 1) have increased 174 percent, gasoline 143 percent, men's shoes 139 percent, food 129 percent, electricity 89 percent, hospital semi-private room 774 percent, all goods and services 124 percent... air fares (U.S. scheduled airlines) 20 percent.

How do U.S. air fares stack up against those in other parts of the world.

They are lower. Here are some examples:

U.S. fares: Washington-Detroit 404 Miles, \$54; Atlanta-Boston 946 Miles, \$95; Chicago-Los Angeles 1,745 Miles, \$153.

Foreign fares: Paris-Milan 395 Miles, \$96; Rome-Copenhagen 955 Miles, \$221; Bombay-Tehran 1,741 Miles \$254.

Looking to the future, it may be necessary to adjust air fares to keep up with rising costs (jet fuel, for instance rose 20 percent last-127 percent since 1973). But airline ticket prices will continue to receive good marks. That's the commitment of the airlines of America, which stand for public transportation at its best.
