NKL Receives Centennial Designation

The North Kent Leader was one of 24 local businesses receiving a certificate from the Historical Society of Michigan designating it as a "Centennial" business at a meeting sponsored jointly by the Grand Rapids Area Chamber of Commerce and the Grand Rapids Historical Society.

Centennial designations to the 24 area businesses were a result of a state-wide effort during the Bicentennial year to find the "oldest" businesses in Michigan. Based on the information gathered at that time the awards were made locally at the Tuesday morning breakfast held in the Kent Room of Herpolsheimer's.

Continuing designation by the Historical Society of businesses attaining the 100 year mark will be an ongoing effort. Designation may be obtained by any firm presenting proof of their founding date to Gordon Olson, local representative for the Society at the Grand Rapids Museum, 54 Jefferson SE, Grand Rapids.

In its 101st year the North Kent Leader traces its beginnings to the Sentinel first published in 1876 by J.W. Hallack. From those beginnings it merged two weeklies into the Sparta Sentinel Leader. The 50's saw the forming of the Sparta Reminder. The

Sentinel Leader and Sparta Reminder merged in the early 70's. In 1974 the name was changed to the North

Kent Leader as a recognition of the expanded market area served by the publication.

Donate to

Burn Unit

Dan Cheslek representing the Sparta Lions Club turns a check in the amount of \$400 over to Larry Ofield. Ofield is a member of Grand Rapids Jaycees, the organization spearheading the fund drive for the Blodgett Burn Unit to be located at Blodgett Hospital in Grand Rapids.

The monies donated to the drive by the Lions Club were proceeds realized from a Pancake Breakfast held earlier by the group with the designation that profits from the activity would be given to the Burn Unit Fund.

Lessons in utilization of materials

Sparta Middle School students are busy every day working on their snow sculpture. The gigantic creation has been keeping students busy with materials at hand. Namely plenty of snow and cold that allows them an abundance of free natural materials to be creative with. The dimensions of the sculpture are staggering and the photo above shows only a small portion of the overall undertaking.

With no immediate fear of an impending January thaw students should be able to

work at their masterpiece without fear of merely a puddle (lake?) to show all their labors.
